

REMOVABLE MEDIA HOST EXECUTABLES

ABSTRACT OF THE DISCLOSURE

A method of storing images includes providing an image capturing apparatus.

A non-volatile memory medium is inserted into the image capturing apparatus. The non-
5 volatile memory medium is suitable for storing image data. A program is written onto the
non-volatile memory medium. The program is capable executing without specific user
initiative when the non-volatile memory medium is coupled to a computer to access image
data stored in the non-volatile memory medium.
